AUTHOR INDEX FOR VOLUME 22

AHROON, W.A. See Davis, M.J. and Ahroon, W.A. 3, 173
ARNOLD, P., CROSSLEY, E. and EXLEY, S. Deaf children's speaking, writing, and comprehension of sentences 4, 225
AUNE, K.J. See Bingea, R.L. et al. 4, 275
BALL, L. L. Electrically induced potentiation of eighth nerve responses . . 2, 107
BAYE, L. See Bingea, R.L. et al. 4, 275
BEATTIE, R.C., Zenti
BEATTIE, R.C., ZENTIL, A. and SVIHOVEC, D.A. Effects of white noise on the most comfortable level for speech with normal listeners 1, 71
BEATTIE, R.C. and DAILY, L.B. Bone-conduction force values for the sensorineural acuity level (SAL) test 1, 51
BERGER, K.W. and SHIPLETT, L.L. The reliability of MCLs with pure tones and damped wave trains 1, 61
BINGEA, R.L., RAFFIN, M.J.M., AUNE, K.J., BAYE, L. and SHEA, S.L. Incidence of hearing loss among geriatric nursing-home patients. 4, 275
BLAGER, F.B., ZIMET, S.G. and FARLEY, G.K. Auditory discrimination abitilies of emotionally disturbed children in day psychiatric treatment: A replication study 2, 77
BORINO, B. See DiSimoni, F.G. and Borino, B. 1, 23
BRANDT, J.F. See Leek, M.R. 1, 9
Cales, M. See Rudmin, F. and Cales, M. 3,200
CERVELLERA, G. and QUARANTA, A. Audiologic findings in presbycusis 3,161
CHAMBERS, J.N. See Kitzman, J.V. et al. 2, 87
CLAUSER, P.S. See Riensche, L. and Clauser, P.S. 4, 240
COBB, F. See Weiler, E.M. and Cobb, F. 4, 233
COOPER, S.J. See Fulton, R.T. et al. 2, 131
COULTER, D.B. See Kitzman, J.V. et al. 2, 87
CROSSLEY, E. See Arnold, P. et al. 4, 225
DAILY, L.B. See Beattie, R.C. and Daily, L.B. 1, 51
DAVIS, M.J. and AHROON, W.A. Fluctuations in susceptibility to noise-induced temporary threshold shift as influenced by the menstrual cycle 3, 173
DECKER, T.N. and TRUE, N. Hearing aid volume control taper: Kasten and Lotterman revisited. 3, 205
DiSimoni, F.G. and BORINO, B. Response of severely and profoundly hearing-impaired children on a semantic language task (Token Test) . . .1, 23

DiSimoni, F.G. and MUCHA, R. Use of the Token Test for Children to identify language deficits in pre-school age children 4, 265
DOYLE, K. J. See Edgerton, B.J. and Doyle, K.J. 3, 216
EDGERTON, B.J. and DOYLE, K.J. Auditory perceptions induced by low-frequency acoustic and electric stimulation 3, 216
EXLEY, S. See Arnold, P. et al. 4, 225
FARLEY, G.K. See Blager, F.B. et al. 2, 77
FORRESTER, J.C. See Raffin, M.J.M. and Forrester, J.C. 1, 37
FULTON, R.T., MEYER, P.A. and COOPER, S.J. Lack of effect of contralateral speech discourse on auditory threshold response behavior. 2, 131
GADE, P.A. See Mills, C.B. et al. 2, 99
GARRETT, R.L. Message cues, intelligibility, and comprehension: A follow-up investigation 2, 93
HARRIS, L.V. and RAFFIN, M.J.M. Cost effectiveness of various spondee-threshold methods 2, 143
HARTMAN, B-t. An exploratory study of the effects of disco music on the auditory and vestibular systems 2, 271
HURLEY, R.M. The effect of training on discrimination of vibrotactual speech stimuli 1, 45
HURLEY, R.M. See Sells, J. and Hurley, R.M. 1, 29
JOYCE, C.A. and PATCHETT, R.F. Oxygen consumption and noise-induced TTS in humans 2, 83
KITZMAN, J.V., CHAMBERS, J.N. and COULTER, D.B. The effects of halothane-and-oxygen anesthesia, and of halothane-nitrous oxide-and-oxygen anesthesia on tympanograms in the dog 2, 87
LEEK, M.R. and BRANDT, J.F. Frequency and intensity effects on ear dominance for tone bursts 1, 9
LENHARDT, M.L. Bone conduction hearing in turtles 3, 153
LOWRY, L.D. See Young, I.M. and Lowry, L.D. 4, 249
MEYER, P.A. See Fulton, R.T. et al. 2, 131
MILLS, C.B., GADE, P. A. and SHIELDS, J.L. Effects of size of interval between items and noise level upon immediate recall 2, 99
MLINER, D.G. See Niederjohn, R.J. and Mliner, D.G. 3, 189
MUCHA, R. See DiSimoni, F.G. and Mucha, R. 4, 265
NEWMAN, C.V. Recognition of time-compressed high- and low-predictability sentences by normal subjects 4, 259
NIEDERJOHN, R.J. and MLINER, D.G. The effect of high-pass and of low-pass filtering upon the intelligibility of speech in white noise 3, 189
PANG-CHING, G. K. Hearing levels of secondary school band directors. . . 4, 284
PATCHETT, R.F. See Joyce, C.A. and Patchett, R.F. 2, 83

PEDERSON, L.M. See Sandman, D.E. et al. 1, 65
QUARANTA, A. See Cervellera, Q. 3, 161
RAFFIN, M.J.M. See Bingea, R.L. et al. 4, 275
RAFFIN, M.J.M. See Forrester, J.C. and Raffin, M.J.M. 1, 37
RAFFIN, M.J.M. See Harris, L.V. and Raffin, M.J.M. 2, 143
RIENSCHE, L.L. and CLAUSER. P.S. Auditory perceptual abilities of formerly misarticulating children 4, 240
RODGER, J.C. See Shelton, B.R. et al. 1, 1
RUDMIN, F. and CALES, M. Comparison of English and French versions of a dichotic auditory perception test (SSW) on normal bilingual subjects. . 3, 200
SANDMAN, D.E., WEILER, E.M. and PEDERSON, L.M. Perstimulatory adaptation by magnitude estimation: Effects of time of day, level of continuous tone, and relative level of periodic increments. 1, 65
SEARLE, C.L. See Shelton, B.R. et al. 1,1
SELLS, J. and HURLEY, R.M. A preliminary report on three 40-word revised CID W-22 lists of equal difficulty 1, 29
SHEA, S.L. See Bingea, R.L. et al. 4, 275
SHELTON, B.R., RODGER, J.C. and SEARLE, C.L. The relation between vision, head motion and accuracy of free-field auditory localization . . . 1, 1
SHIELDS, J.L. See Mills, C.B. et al 2, 99
SHIPLETT, L.L. See Berger, K.W. and Shiplett, L.L. 1, 61
STEPHENSON, M. See Wall, L. and Stephenson, M. 3, 210
SVIHOVEC, D.A. See Beattie, R.C. et al. 1, 71
TRUE, N. See Decker, T.N. 3, 205
WALL, L. and STEPHENSON, M. Temporal integration and presbycusis . . 3, 210
WEILER, E.M. See Sandman, D.E. et al. 1, 65
WEILER, E.M. and COBB, F. Duration of increment, magnitude estimation adaptation and a proposed loudness function. 4, 233
YOUNG, I.M. and LOWRY, L. D. Loudness recruitment in abrupt drop sensorineural hearing impairment 4, 249
ZENTIL, A. See Beattie, R.C. et al. 1, 71
ZIMET, S.G. See Blager, F.B. et al 2, 77
